

# LEED POINTS

LEED 2009 CI | LEED 2009 NC/SCHOOLS

LEED CREDIT   CATEGORY	MEETS REQUIREMENTS	MAY MEET REQUIREMENTS	INDIRECT CONTRIBUTION	CONTRIBUTION NOTES
<b>Materials &amp; Resources</b>				
<b>MR 2</b> Construction Waste Management Diversion			✓	Watson wraps products in reusable blankets for shipping. When alternative packaging is required, Watson promotes recycling by using cardboard.
<b>MR 3</b> Materials Re-Use		✓		Watson furniture is freestanding, modular and may easily be reconfigured for on-site repurposing or facility to facility reuse. All products are manufactured for lasting durability and backed with a lifetime warranty.
<b>MR 4</b> Recycled Content	✓			Watson's recycled content is among the contract furniture industry's highest. Our steel raw materials average over 50% recycled content, of which 57% is post-consumer industrial waste. Our particleboard and MDF (medium density fiber board) average 92% post-industrial waste.
<b>MR 5</b> Regional Materials		✓		Watson manufactures in Poulsbo, WA. Projects located within 500 miles of our facility may receive a credit for regional sourcing. Over 25% of materials used within our manufacturing process are extracted from within a 500 mile radius of our factory, which may yield an additional credit.
<b>MR 6</b> Rapidly-Renewable Materials		✓		Rapidly renewable materials, like bamboo veneer, may be specified through Watson's Studio process.
<b>MR 7</b> Certified Wood		✓		FSC (Forest Stewardship Council) materials may be specified through Watson's Studio process.
<b>Indoor Environmental Quality</b>				
<b>IEQ 4.1</b> Low-Emitting Materials: Adhesives			✓	Watson manufactures products using only water-based adhesive.
<b>IEQ 4.2</b> Low-Emitting Materials: Paints and Coatings			✓	Watson manufactures all steel products with non-emitting powder coating.
<b>IEQ 4.4</b> Low-Emitting Materials: Composite Wood and Agrifiber Products		✓		Watson furniture may be specified with low emitting or alternative materials of your choice.
<b>IEQ 4.5</b> Low-Emitting Materials: Composite Furniture and Furnishings	✓			Many Watson products conform to SCS Indoor Advantage Certification, meeting requirements as a total system or as an individual workstation.
<b>IEQ 6.1</b> Controllability of Systems: Lighting			✓	Watson LED dimmable and adjustable task lighting at the workstation can contribute to this credit.
<b>IEQ 8.1</b> Daylight and Views: Views			✓	Watson's FRAMES™ panel system may be specified with transparent window tiles above the beltline of the worksurface.
<b>Innovation Design</b>				
<b>ID 1</b> Innovation in Design		✓		Innovation credits may be attained for exemplary performance.
